PROFESSIONAL SUMMARY

B.Sc. Computer Technology graduate aspiring to build a career in AWS Cloud and DevOps. Currently developing hands-on knowledge of AWS cloud services, Linux, Git, Docker, Jenkins, Terraform, Ansible, Kubernetes, and CI/CD practices. Strong foundation in Python, networking, operating systems, and cybersecurity concepts. Interested in cloud infrastructure, deployment automation, monitoring, and secure application delivery. Eager to apply practical skills in an entry-level AWS Cloud / DevOps Engineer role and continuously develop expertise in cloud technologies.

EDUCATION

Bachelor of Science (B.Sc) – Computer Technology

Sri Krishna Arts and Science College | 2023-2026

Higher Secondary

Ashram Matriculation Higher Secondary School

TECHNICAL SKILLS

- Cloud: AWS (EC2, S3, IAM, VPC, RDS, CloudWatch)
- DevOps: Git, GitHub, Jenkins, Docker, Terraform, Ansible
- CI/CD: AWS CodePipeline, CodeDeploy, CI/CD
- Containers: Docker, Kubernetes, ECS, EKS
- OS: Linux, Windows
- Programming: Python, Bash
- Networking: TCP/IP, DNS, HTTP/HTTPS, Security Groups
- Security: CloudTrail, Nmap, Wireshark, Burp Suite
- Database: MySQL, RDS

PROJECT

URL Security Scanner - Cybersecurity web application that analyzes URLs, detects phishing indicators, calculates risk scores, and classifies websites as Safe, Suspicious, or Dangerous.

Error Explanation Assistant - AI-powered tool that converts programming errors into simple explanations and provides debugging suggestions to help beginners understand and resolve coding issues.

CERTIFICATIONS

- AWS Certified DevOps Engineer - Professional Specialization - Coursera
- Ethical Hacking – Hackup Technology
- Introduction to Cybersecurity – Cisco Networking Academy
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate – Oracle
- DBMS – NPTEL
- Data Science – Coursera
