PROFESSIONAL SUMMARY

B.Sc. Computer Technology graduate seeking an entry-level career in AWS Cloud and DevOps. Hands-on learning across AWS services, Linux, Git, Docker, Jenkins, Terraform, Ansible, Kubernetes, and CI/CD concepts, supported by fundamentals in Python, operating systems, and cloud security. Interested in cloud infrastructure, deployment automation, monitoring, and reliable application delivery. Eager to contribute to a cloud/DevOps team and strengthen production-focused skills.

EDUCATION

- **Sri Krishna Arts and Science College | 2023–2026**
Bachelor of Science (B.Sc.) – Computer Technology
- **Ashram Matriculation Higher Secondary School | 2021–2023**
Higher Secondary

TECHNICAL SKILLS

- **Cloud:** AWS (EC2, S3, IAM, VPC, RDS, CloudWatch)
- **DevOps & Infrastructure:** Git, GitHub, Jenkins, Docker, Terraform, Ansible
- **CI/CD:** AWS CodePipeline, AWS CodeDeploy, CI/CD workflows
- **Containers:** Docker, Kubernetes, ECS, EKS
- **Operating Systems:** Linux, Windows
- **Programming & Scripting:** Python, Bash

PROJECTS

URL Security Scanner — Built a web application that analyzes submitted URLs for phishing and suspicious indicators, calculates a risk score, and classifies links as Safe, Suspicious, or Dangerous.

Error Explanation Assistant — Developed an AI-assisted educational tool that converts programming errors into simple explanations and debugging guidance, helping beginners understand what went wrong and how to resolve common issues.

CERTIFICATIONS

- AWS Certified DevOps Engineer – Professional Specialization — Coursera
- DevOps Complete Course — Coursera
- Foundations of DevOps and Git — Coursera
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate — Oracle
- Ethical Hacking — Hackup Technology
- Introduction to Cybersecurity — Cisco Networking Academy
